Sub: - Structure Stability for Delhi International School Edge at Sector-18 Dwarka  
New Delhi 110075.

Kind Attn: Sh. B P. Singh

Dear sir

We have inspected the school building along with representative which is ground + 3 storeyed framed structure having central cutout atrium at two location adjacent to the stair case and library. The length of the structure is large and has been separated with expansion joint. The structure is totally intact and there is no cracks or distress are observed during inspection. It is maintained properly. Preliminary analysis have been carried out and observed that the building is **safe and sound**. Further, it is certified that the structure is considered safe for the purpose it has designed for.

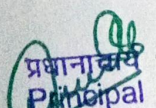

For ABL Structure consultants Pvt. Ltd.
