Sub: Strengthening Oversight and Accelerating Participation in the National Painting Competition on Energy Conservation 2026.

Dear Madam,

As you are aware, the Ministry of Power, in association with the Bureau of Energy Efficiency (BEE), is organizing the National Painting Competition on Energy Conservation 2026. This flagship initiative serves as a critical platform to inculcate a culture for energy efficiency and sustainable practices among the nation's youth.

2. All CPSUs under the Ministry of Power are actively supporting the competition. Specific States/UTs have been allocated to each CPSU, and Nodal Officers have been designated to coordinate with the concerned stakeholders for ensuring maximum participation. In this context, PFC has been allocated the UT Delhi.

3. While encouraging progress has been made in some States/UTs, the overall pace of school registrations and participation in several allocated States/UTs has not been commensurate with expectations. As we strive for a pan-India reach and impactful outcomes, it is imperative that we accelerate our efforts.

4. In a concurrent effort, the Ministry of Power is formally requesting the support of all State/UT Chief Secretaries to facilitate large-scale participation from schools within their jurisdictions.

5. In this regard, I request you to personally review the status of activities being undertaken in your allocated States/UTs and closely monitor the performance of the designated Nodal Officers. They may be advised to intensify their efforts by maintaining regular coordination with the respective State Education Departments, District Administrations, State Designated Agencies, and other relevant authorities to mobilize participation from all eligible schools, including Government, Government-aided, and private schools.

6. Your active leadership, sustained oversight, and strategic support will be instrumental in ensuring broad-based participation and the successful execution of this important national initiative. I am confident that your CPSU will leverage its resources and administrative machinery to maximize participation from the States/UTs allocated to you, thereby contributing significantly to fostering a culture of energy conservation among the younger generation.
