Freedom to Breathe Campaign

Dear Parents and students,

In June 2021, Global Action Plan and Blue air launched the Freedom to breathe campaign. It aims to empower young people to call on the United Nations to acknowledge Children's Right to Clean Air.

This campaign sensitizes children on the importance of breathing clean air and how they can minimize their exposure. This is being implemented in four major cities, which have some of the worst levels of recorded pollution — Beijing, Delhi, London and Los Angeles.

In India, **Center for Environment Education** is partnering with GAP and Blue air to implement the campaign in Delhi schools.

Our school has joined this global campaign and is organising workshop for our students.
